

2011

*** FLU VACCINE NOTICE ***

Flu season is upon us and SummaCare is notifying our fully-insured members of the importance of getting a flu vaccine. Fully-insured members do not have to meet any demographic or clinical criteria to receive a vaccine. In addition, they are able to get their vaccine, **with no copay**, at a number of locations, including your office(s).

Please Note: SummaCare/APEX self-insured customers' benefits are different than our fully-insured membership. For example, deductibles and coinsurance may apply. Please encourage self-insured members to contact our Customer Service Department at 800-753-8429 to check their benefits before they receive a flu vaccine.

If your office administers a flu vaccine to our members, you will be reimbursed the lesser of billed charges or the following rates, less any member financial responsibility (e.g. self-insured, if applicable):

Vaccine Administration			
CPT Code	CPT Code Description	Commercial Payment	Medicare Payment
90460 + 90461	Admin < 18 years w/counsel. 1 st Vaccine each additional vaccine	\$23.65 \$11.96	\$21.39 \$10.82
