

SummaCare's Medicare Advantage network stretches from our front door to yours.

Hello!

The doctor-patient relationship can be one of the most important connections in our lives. The importance of these relationships is why SummaCare works to maintain and grow a vast Medicare Advantage provider network that spans 33 northern Ohio counties, includes more than 25,000 providers and more than 75 hospitals.

More specifically, those who join a SummaCare Medicare Advantage plan have access to providers from the following health systems and hospitals:

"What brought me there was all of my doctors are in network. And so, I thought: I don't want to go anywhere else."
