

Flu season is upon us and SummaCare is notifying our fully-insured (*including Medicare*) members of the importance of getting a flu vaccine. Fully-insured members do not have to meet any demographic or clinical criteria to receive a vaccine. In addition, they are able to get their vaccine, **with no copay**, at a number of locations, including your office(s).

If your office administers a flu vaccine to our members, you will be reimbursed the lesser of billed charges or the following rates, less any member financial responsibility (e.g. self-insured, if applicable):
