

2027 Comprehensive Formulary

(List of Covered Drugs)

Please read: This document contains information about the drugs we cover in this plan

This formulary was updated on October 1, 2026. For more recent information or other questions, please contact SummaCare Member Services at 800.996.6250 or 330.996.8885 (TTY users should call 711). From October 1 through March 31, a representative will be available to take your call from 8:00 a.m. until 8:00 p.m., seven days a week. From April 1 through September 30, a representative will be available to take your call from 8:00 a.m. until 8:00 p.m., Monday through Friday. Or visit summacare.com/medicare. SummaCare is an HMO and HMO-POS plan with a Medicare contract. Enrollment in SummaCare depends on contract renewal.

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us,” or “our” it means SummaCare. When it refers to “plan” or “our plan,” it means a SummaCare Medicare Advantage plan.

This document includes a Drug List (formulary) for our plan, which is current as of October 1, 2026. For an updated Drug List (formulary), please contact us. Our contact information, along with the date we last updated the Drug List (formulary), appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2027, and from time to time during the year.

What is the SummaCare Formulary?

In this document, we use the terms Drug List and formulary to mean the same thing. A formulary is a list of covered drugs selected by SummaCare in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. SummaCare will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a SummaCare network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

For a complete listing of all prescription drugs covered by SummaCare, please visit our website or call us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

Can the Formulary change?

Most changes in drug coverage happen on January 1, but SummaCare may add or remove drugs on the formulary during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow the Medicare rules in making these changes. Updates to the formulary are posted monthly to our website here: summacare.com/medicare.

Changes that can affect you this year: In the below cases, you will be affected by coverage changes during the year:

- **Immediate substitutions of certain new versions of brand name drugs and original biological products.**

We may immediately remove a drug from our formulary if we are replacing it with a certain new version of that drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. When we add a new version of a drug to our formulary, we may decide to keep the brand name drug or original biological product on our formulary, but immediately move it to a different cost-sharing tier or add new restrictions.

We can make these immediate changes only if we are adding a new generic version of a brand name drug, or adding certain new biosimilar versions of an original biological product, that was already on the formulary (for example, adding an interchangeable biosimilar that can be substituted for an original biological product by a pharmacy without a new prescription).

If you are currently taking the brand name drug or original biological product, we may not tell you in advance before we make an immediate change, but we will later provide you with information about the specific change(s) we have made.

If we make such a change, you or your prescriber can ask us to make an exception and continue to cover for you the drug that is being changed. For more information, see the section below titled “How do I request an exception to SummaCare’s Formulary?”

Some of these drug types may be new to you. For more information, see the section below titled “What are original biological products and how are they related to biosimilars?”

- **Drugs removed from the market.** If a drug is withdrawn from sale by the manufacturer or the Food and Drug Administration (FDA) determines to be withdrawn for safety or effectiveness reasons, we may immediately remove the drug from our formulary and later provide notice to members who take the drug.
- **Other changes.** We may make other changes that affect members currently taking a drug. For instance, we may remove a brand name drug from the formulary when adding a generic equivalent or remove an original biological product when adding a biosimilar. We may also apply new restrictions to the brand name drug or original biological product, or move it to a different cost-sharing tier, or both. We may make changes based on new clinical guidelines. If we remove drugs from our formulary, add prior authorization, quantity limits and/or step therapy restrictions on a drug, or move a drug to a higher cost-sharing tier we must notify affected members of the change at least 30 days before the change becomes effective. Alternatively, when a member requests a refill of the drug, they may receive a 30-day supply of the drug and notice of the change.

If we make these other changes, you or your prescriber can ask us to make an exception for you and continue to cover the drug you have been taking. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to SummaCare’s Formulary?”

Changes that will not affect you if you are currently taking the drug. Generally, if you are taking a drug on our 2027 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2027 coverage year except as described above. This means these drugs will remain available at the same cost sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the formulary for the new benefit year for any changes to drugs.

The enclosed formulary is current as of October 1, 2026. To get updated information about the drugs covered by SummaCare please contact us. Our contact information appears on the front and back cover pages. The SummaCare Medicare Formulary is updated monthly and is posted on our website each month. Visit summacare.com/medicare to view or print the formulary.

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Medical Condition

The formulary begins on page 3. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “cardiovascular agents”. If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index that begins on page I-1. The Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

What are generic drugs?

SummaCare covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs work just as well as and usually cost less than brand name drugs. There are generic drug substitutes available for many brand name drugs. Generic drugs usually can be substituted for the brand name drug at the pharmacy without needing a new prescription, depending on state laws.

What are original biological products and how are they related to biosimilars?

On the formulary, when we refer to drugs, this could mean a drug or a biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have alternatives that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilar alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand name drugs.

- For discussion of drug types, please see the Evidence of Coverage, Chapter 5, Section 3.1, “The ‘Drug List’ tells which Part D drugs are covered.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** SummaCare requires you [or your prescriber] to get prior authorization for certain drugs. This means that you will need to get approval from SummaCare based on specific criteria before you fill your prescriptions. If you don’t get approval, SummaCare may not cover the drug.
- **Quantity Limits:** For certain drugs, SummaCare limits the amount of the drug that SummaCare will cover. For example, SummaCare provides 150 tablets per prescription for metformin 500 mg tablets. This may be in addition to a standard one-month or three-month supply.
- **Step Therapy:** In some cases, SummaCare requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, SummaCare may not cover Drug B unless you try Drug A first. If Drug A does not work for you, SummaCare will then cover Drug B.

- **Opioid Edits:** SummaCare has implemented the following opioid edits:
 - o **Enhanced Opioid Cumulative Dosing:** This limit is based on MME (Morphine Milligram Equivalent), which is the calculated amount of opioids that you are taking per day. Your opioid prescription will deny at the pharmacy if your total MME is greater than 90 MME and there are two or more prescribers of your opioid prescription(s). This means that you may need to get approval from SummaCare to fill your opioid prescription(s).
 - o **Opioid-Benzodiazepine Concurrent Use Edit:** If you are taking an opioid and a benzodiazepine that overlap in days' supply and there are two or more prescribing physicians for these medications, the prescription(s) will deny at the pharmacy. This means that you may need to get approval from SummaCare to fill your opioid or benzodiazepine prescription(s).
 - o **Days Supply Limit Edit:** If you have not taken any opioids in the last 60 days, your opioid prescription can only be filled for up to a 7 day supply for acute pain. If you need more than a 7 day supply for your acute pain, you will need to get approval from SummaCare to fill your opioid prescription.
 - o **Long Action (LA) Duplicative Therapy Edit:** If you are taking two or more long acting opioids and there is an overlap in days' supply and two or more prescribing physicians of your opioids, your prescription will deny at the pharmacy. This means that you may need to get approval from SummaCare to fill your opioid prescription(s).

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 3. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask SummaCare to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, "How do I request an exception to the SummaCare formulary?" on page E for information about how to request an exception.

What are over-the-counter (OTC) drugs?

OTC drugs are non-prescription drugs that are not normally covered by a Medicare Prescription Drug Plan. SummaCare pays for certain OTC drugs if prescribed by a doctor, and presented with a prescription.

Generic Name	(Reference Brand Name)	Dosage Form
Cetirizine Hydrochloride	(Zyrtec)	Chewable Tablet, Solution, Tablet
Cetirizine Hydrochloride/Pseudoephedrine Hydrochloride	(Zyrtec-D)	12 Hour Tablet
Fexofenadine Hydrochloride	(Allegra)	12 Hour Tablet, 24 Hour Tablet, Tablet Rapids, Suspension
Fexofenadine/Pseudoephedrine Hydrochloride	(Allegra-D)	12 Hour Tablet, 24 Hour Tablet
Ketotifen Fumarate	(Zaditor)	Eye Drops
Levocetirizine Dihydrochloride	(Xyzal)	Tablet
Loratadine	(Claritin)	Solution, Tablet, Tablet Rapids, Chewable Tablet

Generic Name	(Reference Brand Name)	Dosage Form
Loratadine/Pseudoephedrine Hydrochloride	(Claritin-D)	12 Hour Tablet, 24 Hour Tablet
Olopatadine Hydrochloride	(Pataday)	Eye Drops
Nicotine	(Nicotine Patch)	Patch
Nicotine Polacrilex	(Nicorette)	Gum
Nicotine Polacrilex	(Nicotine Lozenge)	Lozenge

SummaCare will provide these generic OTC drugs at no cost to you. The cost to SummaCare of these generic OTC drugs will not count toward your total Part D drug costs.

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Member Services and ask if your drug is covered.

If you learn that SummaCare does not cover your drug, you have two options:

- You can ask Member Services for a list of similar drugs that are covered by SummaCare. When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by SummaCare.
- You can ask SummaCare to make an exception and cover your drug. See below for information about how to request an exception.

How do I request an exception to the SummaCare Formulary?

You can ask SummaCare to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to waive a coverage restriction including prior authorization, step therapy, or a quantity limit on your drug. For example, for certain drugs, SummaCare limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.
- You can ask us to cover a formulary drug at a lower cost-sharing level, unless the drug is on the specialty tier. If approved this would lower the amount you must pay for your drug.

Generally, SummaCare will only approve your request for an exception if the alternative drugs included on the plan's formulary, the lower cost-sharing drug or applying the restriction would not be as effective for you and/or would cause you to have adverse effects.

You or your prescriber should contact us to ask for a tiering or, formulary exception, including an exception to a coverage restriction. **When you request an exception, your prescriber will need to explain the medical reasons why you need the exception.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can ask for an expedited (fast) decision if you believe, and we agree, that your health could be seriously harmed by waiting up to 72 hours for a decision. If we agree, or if your prescriber asks for a fast decision, we must give you a decision no later than 24 hours after we get your prescriber's supporting statement.

What can I do if my drug is not on the formulary or has a restriction?

As a new or continuing member in our plan you may be taking drugs that are not on our formulary. Or, you may be taking a drug that is on our formulary but has a coverage restriction, such as prior authorization. You should talk to your prescriber about requesting a coverage decision to show that you meet the criteria for approval, switching to an alternative drug that we cover, or requesting a formulary exception so that we will cover the drug you take. While you and your doctor determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or has a coverage restriction, we will cover a temporary 30-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 30-day supply of medication. If coverage is not approved, after your first 30-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a formulary exception.

If you are a current member of SummaCare and experience a change in your level of care from one treatment setting to another, we will cover a one-time emergency fill of a non-formulary drug.

For more information

For more detailed information about your SummaCare prescription drug coverage, please review your Evidence of Coverage and other plan materials.

If you have questions about SummaCare, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1.800.MEDICARE (1.800.633.4227) 24 hours a day/7 days a week. TTY users should call 1.877.486.2048. Or, visit <http://www.medicare.gov>.

SummaCare's Formulary

The formulary that begins on page 3 provides coverage information about the drugs covered by SummaCare. If you have trouble finding your drug in the list, turn to the Index that begins on page I-1.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., ELIQUIS®) and generic drugs are listed in lower-case italics (e.g., *amoxicillin*).

The information in the Requirements/Limits column tells you if SummaCare has any special requirements for coverage of your drug.

The following abbreviations may be found within the body of this document.

COVERAGE NOTE ABBREVIATIONS		
ABBREVIATION	DESCRIPTION	EXPLANATION
Utilization Management Restrictions		
CB	Capped Benefit	This drug has a capped benefit, meaning SummaCare limits the amount of this drug that is covered per prescription.
EX	Excluded Part D	This prescription drug is not normally covered in a Medicare Prescription Drug Plan. The amount you pay when you fill a prescription for this drug does not count toward your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage). In addition, if you are receiving extra help to pay for your prescriptions, you will not get any extra help to pay for this drug.
PA	Prior Authorization Restriction	You (or your physician) are required to get prior authorization from SummaCare before you fill your prescription for this drug. Without prior approval, SummaCare may not cover this drug.
PA BvD	Prior Authorization Restriction for Part B vs. Part D Determination	This drug may be eligible for payment under Medicare Part B or Part D. You (or your physician) are required to get prior authorization from SummaCare to determine that this drug is covered under Medicare Part D before you fill your prescription for this drug. Without prior approval, SummaCare may not cover this drug.
PA-HRM	Prior Authorization Restriction for High Risk Medications	This drug has been deemed by CMS to be potentially harmful and therefore, a High Risk Medication for Medicare beneficiaries 65 years or older. Members age 65 years or older are required to get prior authorization from SummaCare before you fill your prescription for this drug. Without prior approval, SummaCare may not cover this drug.
PA NSO	Prior Authorization Restriction for New Starts Only	If you are a new member, you (or your physician) are required to get prior authorization from SummaCare before you fill your prescription for this drug. Without prior approval, SummaCare may not cover this drug.
QL	Quantity Limit Restriction	SummaCare limits the amount of this drug that is covered per prescription, or within a specific time frame.
ST	Step Therapy Restriction	Before SummaCare will provide coverage for this drug, you must first try another drug(s) to treat your medical condition. This drug may only be covered if the other drug(s) does not work for you.

Other Special Requirements for Coverage		
LA	Limited Access Drug	This prescription may be available only at certain pharmacies. For more information consult your Pharmacy Directory or call Member Services at toll-free 800.996.6250 or 330.996.8885 for additional information. TTY users should call 711.
NM	Non-Mail Order Drug	You may be able to receive greater than a one month supply of most of the drugs on your formulary via mail order at a reduced cost share. Drugs <u>not</u> available via your mail order benefit are noted with “NM” in the Requirements/Limits column.
NDS	Non-Extended Days Supply	This drug is not available for extended day supply and is limited to a 30 day supply.

Drug Name	Drug Tier	Requirements/Limits
Angiotensin II Receptor Antagonists		
<i>candesartan oral tablet 16 mg, 32 mg, 4 mg, 8 mg</i> (Atacand)	6	
<i>candesartan-hydrochlorothiazid oral tablet 16-12.5 mg, 32-12.5 mg, 32-25 mg</i> (Atacand HCT)	4	
<i>irbesartan oral tablet 150 mg, 300 mg</i> (Avapro)	1	
<i>irbesartan oral tablet 75 mg</i>	1	
<i>irbesartan-hydrochlorothiazide oral tablet 150-12.5 mg, 300-12.5 mg</i> (Avalide)	6	
<i>losartan oral tablet 100 mg, 25 mg, 50 mg</i> (Cozaar)	1	
<i>losartan-hydrochlorothiazide oral tablet 100-12.5 mg, 100-25 mg, 50-12.5 mg</i> (Hyzaar)	1	
<i>olmesartan oral tablet 20 mg, 40 mg, 5 mg</i> (Benicar)	1	
<i>olmesartan-amlodipin-hcthiiazid oral tablet 20-5-12.5 mg, 40-10-12.5 mg, 40-10-25 mg, 40-5-12.5 mg, 40-5-25 mg</i> (Tribenzor)	4	
<i>olmesartan-hydrochlorothiazide oral tablet 20-12.5 mg, 40-12.5 mg, 40-25 mg</i> (Benicar HCT)	6	
<i>sacubitril-valsartan oral tablet 24-26 mg</i> (Entresto)	3	QL (180 per 30 days)
<i>sacubitril-valsartan oral tablet 49-51 mg, 97-103 mg</i> (Entresto)	3	QL (60 per 30 days)
<i>telmisartan oral tablet 20 mg</i>	6	
<i>telmisartan oral tablet 40 mg, 80 mg</i> (Micardis)	6	

You can find information on what the symbols and abbreviations in this table mean by going to the introduction pages of this document

01/01/2027

Drug Name	Drug Tier	Requirements/Limits
<i>telmisartan-amlodipine oral tablet</i> 40-10 mg, 40-5 mg, 80-10 mg, 80-5 mg	4	
<i>telmisartan-hydrochlorothiazid oral tablet</i> 40-12.5 mg, 80-12.5 mg, 80-25 mg (Micardis HCT)	6	
<i>valsartan oral tablet</i> 160 mg, 320 mg, 40 mg, 80 mg (Diovan)	6	
<i>valsartan-hydrochlorothiazide oral tablet</i> 160-12.5 mg, 160-25 mg, 320-12.5 mg, 320-25 mg, 80-12.5 mg (Diovan HCT)	6	
Angiotensin-Converting Enzyme Inhibitors		
<i>benazepril oral tablet</i> 10 mg, 20 mg, 40 mg (Lotensin)	1	
<i>benazepril oral tablet</i> 5 mg	1	
<i>benazepril-hydrochlorothiazide oral tablet</i> 10-12.5 mg, 20-12.5 mg, 20-25 mg (Lotensin HCT)	6	
<i>benazepril-hydrochlorothiazide oral tablet</i> 5-6.25 mg	6	
<i>captopril oral tablet</i> 100 mg, 12.5 mg, 25 mg, 50 mg	6	
<i>enalapril maleate oral solution</i> 1 mg/ml (Epaned)	4	ST; QL (1200 per 30 days)
<i>enalapril maleate oral tablet</i> 10 mg, 2.5 mg, 20 mg, 5 mg (Vasotec)	1	
<i>enalapril-hydrochlorothiazide oral tablet</i> 10-25 mg (Vaseretic)	1	
<i>enalapril-hydrochlorothiazide oral tablet</i> 5-12.5 mg	1	

You can find information on what the symbols and abbreviations in this table mean by going to the introduction pages of this document
