

April 7, 2026

Dear Provider,

As part of our continued efforts to support team-based care, effective June 8, 2026, SummaCare will begin attributing members to eligible mid-level providers practicing in a primary care role within your organization.

Member attribution to mid-level providers will be based on claims history reflecting prior primary care services.

This change applies to **Certified Nurse Practitioners (CNPs) and Physician Assistants (PAs)**. These providers will be designated and recognized as a member's attributed PCP for panel assignment, care coordination, and reporting purposes.

The updated attribution process will apply to all Commercial and Medicare lines of business.

PCP panel reports and related performance metrics will reflect this change and apply to all Commercial and Medicare lines of business.. If you have any questions, please contact your assigned Provider Engagement Specialist or email the Provider Engagement Team at providerengagement@summacare.com.

Sincerely,

Quality Management
